Plansa  
D4.20

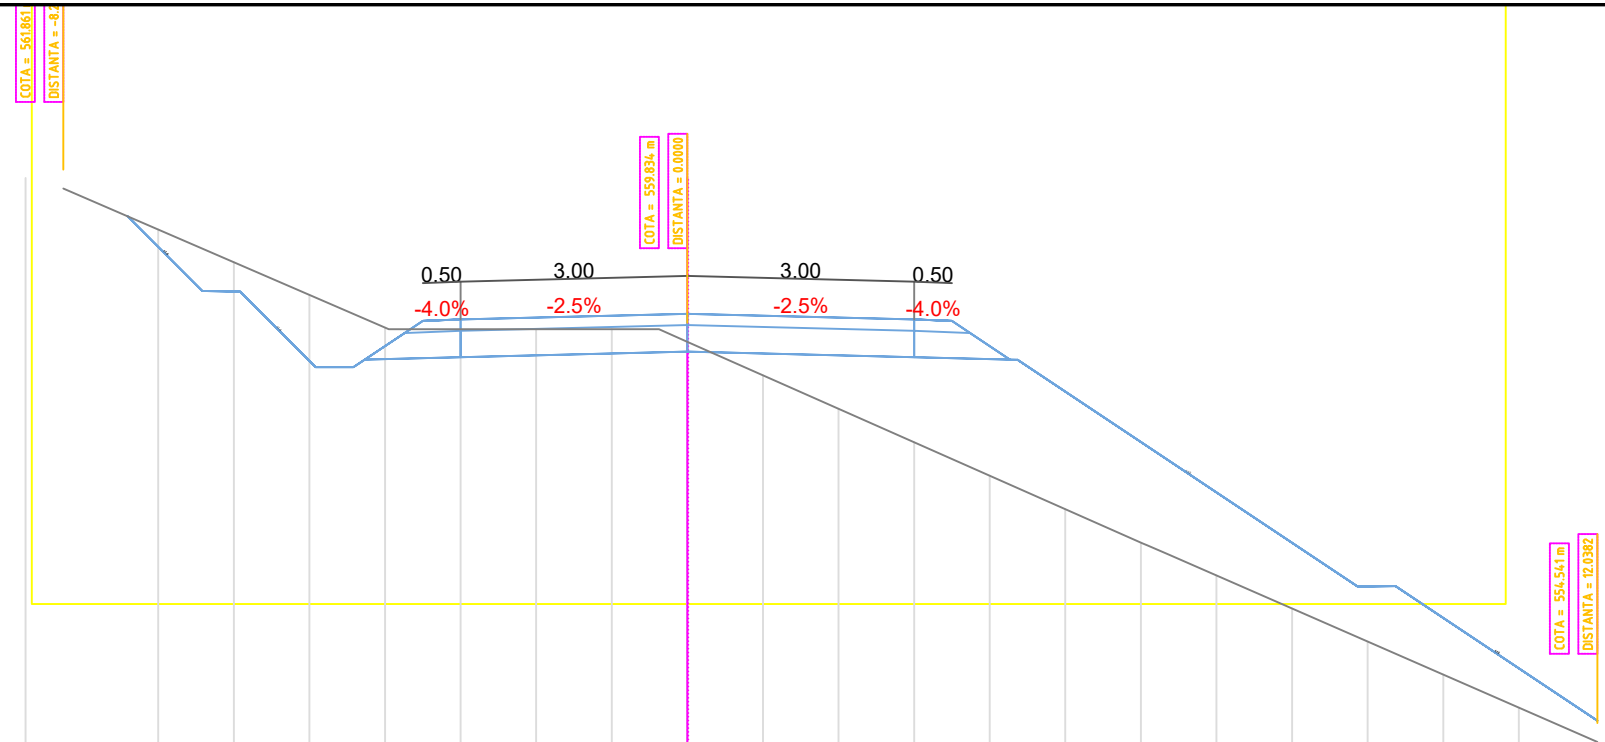

Diagram illustrating a road cross-section profile with a parabolic curve. The profile shows the existing ground (blue line) and the proposed road grade (yellow line). The curve is defined by a parabolic equation, with key points labeled:

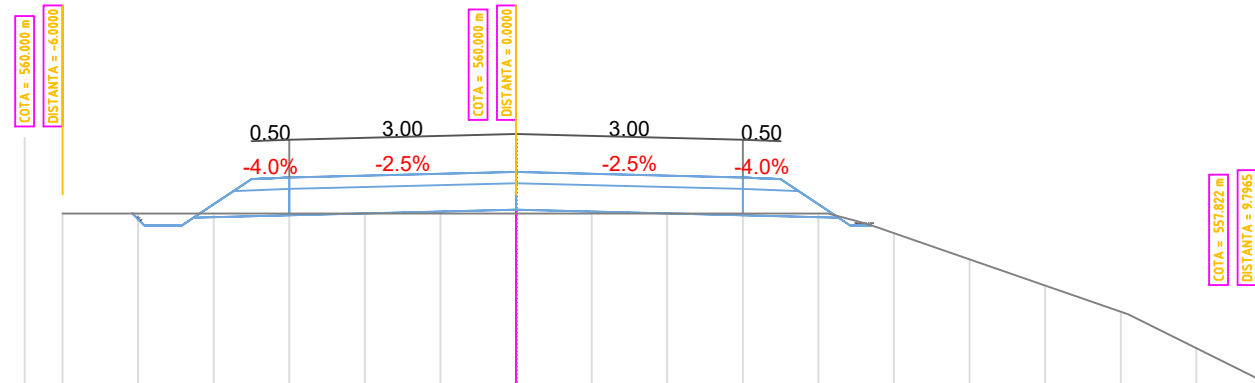

- Start of curve: COTA = 561.865, DISTANTA = -82.000
- Vertex of curve: COTA = 559.824, DISTANTA = 0.000
- End of curve: COTA = 554.541, DISTANTA = 12.882

The profile includes a parabolic curve (black line) and a proposed road grade (yellow line). The existing ground is shown in blue. The curve is defined by a parabolic equation, with key points labeled:

- Start of curve: COTA = 561.865, DISTANTA = -82.000
- Vertex of curve: COTA = 559.824, DISTANTA = 0.000
- End of curve: COTA = 554.541, DISTANTA = 12.882

The profile includes a parabolic curve (black line) and a proposed road grade (yellow line). The existing ground is shown in blue. The curve is defined by a parabolic equation, with key points labeled:

- Start of curve: COTA = 561.865, DISTANTA = -82.000
