

An aerial photograph of a city grid, likely New York City, showing a dense pattern of yellow and brown buildings. A red dashed circle is drawn around a specific block, and a purple rectangle is drawn within that circle, highlighting a particular building or area of interest.

An aerial photograph of a city block, likely in New York City, showing a dense grid of streets and buildings. A red dashed circle is drawn around a specific building, and a red exclamation mark is placed inside the circle, indicating a point of interest. The building is located at the intersection of 10th Avenue and 10th Street. The surrounding area includes various other streets and buildings, with some labels visible such as '10th Avenue', '10th Street', and '10th Avenue'. The image is oriented vertically, with the top of the page showing the top of the block.
